PostgreSQL

PostgreSQL table of contents:

Topics	Sub Topics
Getting Started	
	Installation
	Introduction
	What is PostgreSQL
	Architectural Fundamentals
	Creating a Database
	Accessing a Database
	Creating a New Table
	Altering existing Table
	Populating a Table With Rows
Querying a Table	
	The SELECT command
	filtering with WHERE
	UPDATE data in a table
	DELETE data from a table
	Combining Queries
	LIMIT and OFFSET
	WITH Queries
Data Definition	
	Constraints
	Privileges
	Schemas
	Table Partitioning
PostgreSQL Database Objects	
	Schema

	Tablespace
	Functions
	Cast and Operators
	Sequence
	Extensions
Indexes	
	Introduction
	Index Types
	Multicolumn Indexes
	Indexes and ORDER BY
	Combining Multiple Indexes
	Unique Indexes
	Indexes on Expressions
	Partial Indexes
PostgreSQL Operators	
	UNION Operator
	UNION ALL operator
	INTERSECT Operator
	EXCEPT Operator
	IN Operator
	AND Operator
	OR Operator
	Using AND with OR
	LIKE Operator
Table Joins	
	Inner Joins
	Left Join
	Full Outer Join
	Cross Join
	Natural Join
Aggregate Functions	

	Introduction to Aggregate Functions
	AVG Function
	COUNT Function
	MAX Function
	MIN Function
	SUM Function and more.
PostgreSQL Views	
	Introduction to Views
	Benefits of using Views
	Creating a View
	Modifying and Removing Views
Triggers Sub-queries Stored Procedures	
	Introduction to Triggers, Sub-queries, Stored Procedures
	Creating a Triggers
	Managing triggers
	Creating and using sub-queries
	Creating and using stored procedures
Analytic Functions	
	What are Analytic Functions
	Using AVG as window function
	Analysing data with ROW NUMBER function
	Analysing data with RANK function
	Analysing data with DENSE RANK function
	Analysing data with FIRST VALUE function
	Analysing data with LAST function
	Analysing data with LAG function
	Analysing data with LEAD function
