# PYTHON

## Python table of contents:

<b>Topics</b>	<b>Sub Topics</b>
<a href="#">Introduction to Data Analytics</a>	
	Introduction to the course
	What is Data ?
	Why Data Analytics?
	Why Python?
<a href="#">Getting Started with Python</a>	
	<b>Installation and Setup Python</b>
	How to install Python?
	How python runs programs?
	How you run programs?
	Installing jupyter notebook
	<b>Data Structures</b>
	Lists
	Tuples
	Dictionaries
	Sets
	<b>String Fundamentals</b>
	Basic Operations
	Indexing and Slicing
	String Functions
	Regular Expressions
	String Formatting

	<b>Operators</b>
	Arithmetic Operators
	Comparison (Relational) Operators
	Assignment Operators
	Logical Operators
	Bitwise Operators
	Membership Operators
	Identity Operators
	<b>Decision Making</b>
	if Statement
	if..else Statement
	nested if Statements
	<b>Loops</b>
	while loop
	for loop
	nested loops
	loop control statement
	Iterators
	<b>Date &amp; Time</b>
	time & date time module
	Calendar module
	<b>Files I/O</b>
	Opening ,Closing, Reading & Writing files
	Reading and writing Csv
	<b>Functions</b>
	Pass by Reference vs Value
	Function Arguments
	Scope of Variables
	<b>Advanced Function Topics</b>
	Anonymous Functions: lambda
	Map,Reduce & Filter

	<b>OOPS in Python</b>
	Class
	Inheritance
	Polymorphism
	Encapsulation
	<b>Exception Handling</b>
	try/except/else/finally Statement
	raise Statement
	assert Statement
